Says he had an accident but was not lucky to receive an indemnification and so he had to buy on credit in order to sustain his family during his sickness. He wants an increase so that he can live with his family and says that the rate of 7\$700 per day is not sufficient on account of the actual living conditions. He is worrying about the debt and asks pardon for writing you about this matter.

Alguém aos 25 sente-se morrendo.*

This fellow works in the plantation dept. under Max's supervision. His accident was a rupture and Dr. Siqueira stated that in accordance with the Law this case was not considered an accident. He was later operated and lost approx. 3 weeks. The records are at Belterra but I guess this was the time he lost. He got no compensation and earned nothing during the time he was laid off in the hospital.
