concerning ART

DATE 01-11-77

MESSAGE:

dear friends in poetry's love -

thank you very much for your couples of very good things concerning not only art alone, as a fact of investment & decoration, but also as thinkable information material - and that is, what art EVER should content.

in my south-american archive you since now have a special place.

so it would be great and important for the international art-idea, that you could inform me always about your new activities by sending me your always new informationa.

i publish the I.A.C.bulletin since six years. if you want, i will send you some past sheets, they are not longer actual, but perhaps intersting for your library. the next info is nr. 27 - and if you want ( it is a double folded page in black and white with artistic informations, invitations and documentations from all over the world) i will send it to you after having printed it.

hasta luego, muchas embracios de aqui  
su amigo

klaus

*Yours Klaus*
